CAREER OBJECTIVE

Aspiring Information Technology Engineer with knowledge of programming, databases, networking, and software development. Skilled in Java, Spring Boot, Hibernate, MySQL, Python, C#, PHP, and Web Technologies. Seeking opportunities to apply technical skills, develop scalable software solutions, enhance expertise in Java Full Stack development, and contribute to innovative IT projects while continuously learning and growing in the technology industry.

EDUCATION

Bachelor of Technology (B.Tech) – Information Technology

Dr. J.J. Magdum College of Engineering, Jaysingpur | CGPA: 7.80 | Pursuing

Diploma in Engineering

SVERI's College of Engineering (Polytechnic), Pandharpur | 2021–2024 | 83%

TECHNICAL SKILLS

Programming Languages: Java, Python, C, C#, PHP

Java & Backend Technologies: Core Java, Spring Boot, Hibernate, JDBC, Microservices

Web Technologies: HTML5, CSS3, JavaScript, ReactJS

Databases: MySQL

Core Concepts: Object-Oriented Programming (OOP), Exception Handling, DBMS, Database Connectivity, REST API Basics, JPA/Hibernate ORM

Developer Tools: Eclipse IDE, Visual Studio Code, Jupyter Notebook

Soft Skills: Leadership, Team Collaboration, Communication, Quick Learning, Problem Solving

WORK EXPERIENCE

Core Java Intern – Oasis Infobyte

- Completed a Core Java internship focused on software development fundamentals.
- Worked with Object-Oriented Programming (OOP), JDBC, Exception Handling, and Java application development.
- Developed hands-on experience in database connectivity and backend programming concepts.
- Improved problem-solving and debugging skills through practical assignments and projects.

PROJECTS

Mental Healthcare Website – HTML/CSS/JavaScript

- Developed a responsive mental wellness website with interactive UI components and mobile-friendly design.
- Implemented the frontend using HTML, CSS, and JavaScript.
- Designed user-friendly interfaces with responsive layouts.

ATM Simulation – Java/MySQL

- Developed a banking application using Core Java and MySQL.
- Implemented user authentication, balance inquiry, cash withdrawal, deposit, fund transfer, and transaction history.
- Used JDBC for database connectivity and transaction management.
- Applied OOP and exception-handling concepts for reliable application development.

CERTIFICATIONS

- Java Programming Certification
- AI- Data Engineering Analyst Certification
- National Level Project Competition (DIPEX-2023) – Participation Certificate
